Start Creating With Our Online Designer:

Once you've chosen your canvas, you'll be taken to our Online Designer. This is where you get to be your own artist.

On the left side of the designer window, you'll find all your product info. This is where you'll select the size, colour and quantity of garments you want to print.

At the top of the designer window, you'll find buttons to add custom text, upload a design or create team names. Here you can select from a variety of font styles and colours, choose to use a design from our library, or upload your own.

Using your cursor, drag and position the text and images wherever you like. We clearly outline the printable boundaries of the t-shirt so you don't end up placing anything too close to the edge.

Take as much or as little time as you want to explore the design possibilities.

Complete Your Order:

When you're all set, simply click the 'Buy' button, and your finished custom t-shirt design will go to print. Once we're done, we'll ship your t-shirt straight to your door, so you'll be wearing your new custom t-shirt design in a matter of days.
